SUN SYNK®

Your **Home.**
Your **Energy.**
Your **Power.**

Your all-in-one energy management app – now with optional AI for smarter savings.

The App that puts the power in your hands. Manage, monitor, and optimise your home or business energy directly from your smart phone no matter where you are.

SUN SYNK®

Why Sunsynk Connect Pro?

Advanced Features & Optional AI

Sunsynk Connect Pro is free to download and use. The Pro Plan subscription is an optional paid extra. Enhanced by CONDUCTIFY's cutting-edge AI-powered technology, which brings advanced machine learning, AI algorithms, and greater automation and efficiency to Sunsynk's local renewable and off grid systems.

It prioritises the storage and use of local renewable energy, reducing reliance on the grid. By continuously analysing on-site data, the AI learns how your system performs under different conditions and adapts to your energy usage patterns over time, enabling it to predict future usage conditions.

Each day, an automated process uses this on-site data, weather forecasts, and predictive analytic to plan for the next day. It determines the best time to draw from the grid at the lowest available rates while also navigating load-shedding in South Africa or flexible tariffs in the UK.

While CONDUCTIFY's AI works from day one, its adaptive learning capability allows it to refine its predictions over time. This helps users achieve significant energy savings, lower their carbon footprint, and gain greater energy independence with more reliable local renewable energy systems.

Competitors use "one-size-fits-all" rules or simple estimates less efficient, less savings.

SUN SYNK®

Features with Pro

Upgrade with AI for Even Smart Savings

The optional AI feature learns your usage patterns and dynamically adjusts inverter settings to:

- Maximise energy savings.
- Reduce unnecessary power waste.
- Make the most of solar production and battery storage.

Intelligent Energy Management

Optimise how your home or business consumes power. Sunsynk Connect Pro helps you cut costs and maximise efficiency by automating when and how you use stored energy.

Smart Home Integration

Pair seamlessly with your Sunsynk system for total smart home control. Adjust your system directly from your phone, perfect for busy lifestyles.

Safe & Secure

Your data and energy network are protected with industry-leading security.
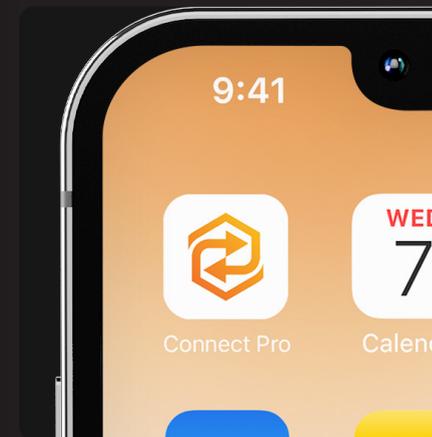

Data-Driven Insights

Our powerful analytic help you track performance trends, predict savings, and make smarter energy decisions.

Auto Energy Source Switching

Seamlessly switch between solar, battery, and grid power without interruptions.

Time-Shifting Of Loads

Run appliances at the best times to maximise your own renewable energy.

Designed for Next-Gen Inverters.

Active Intelligent Management for Minimal Grid Usage

Hosted in the UK

SUN SYNK®

Go Pro for Free

Managing your entire Sunsynk energy system has never been easier. The Sunsynk Connect Pro app gives you clear performance insights, alerts, and secure European data hosting. It also integrates seamlessly with Octopus Agile and Flux tariffs, while an automatic ROI calculator helps you track the true value of your energy usage.

For those ready to take control to the next level, the Pro Plan (£10/month) unlocks the power of CONDUCTIFY's patented technology. This advanced AI technology doesn't just monitor your system, it learns your lifestyle, adapts to your routines, and makes intelligent, automated decisions to maximise efficiency. The result is smarter energy use, lower costs, and a system that truly works for you.

Sunsynk Connect Pro is free to download and use.

The Pro Plan subscription is optional.

Requires IOS 16 or later.   Requires Android8 or later.

Free Plan
Sunsynk Connect Pro

Sunsynk Connect Pro (Free Plan) is our original, no-cost solution that gives users full manual control of their system, with access to historical data, basic scheduling, and essential monitoring features.

- Data Hosted in Europe
- Live Monitoring
- Full System Remote Control
- Remote Firmware Updates
- Detailed Reporting
- Philip Hue Integration
- Automatic ROI Calculator
- Integrated with Agile Octopus & Flux
- Easy Commissioning Process

£10 p/m
Sunsynk Connect Pro Plan

Pro Plan is a powerful, AI-driven subscription that takes the hassle out of energy management automatically optimising your system for the lowest costs, highest efficiency, and a truly hands-off experience.

- Data Hosted in Europe
- Live Monitoring
- Full System Remote Control
- Remote Firmware Updates
- Detailed Reporting
- Philip Hue Integration
- Automatic ROI Calculator
- Integrated with Agile Octopus & Flux
- Easy Commissioning Process
- Customisable Dashboard
- Auto Seasonal Mode Switching
- Smart Weather Monitoring
- AI Machine Learning
- Zigbee Integration
- 24/7 Live Chat Support
- Sunsynk Community & Forum
- Sunsynk Insight
- Voice Command Alexa & Google Home Compatible

Disclaimer

Certain features in the Free Plan will be available as a fast follow from launch. Certain features included in the Pro Plan are currently under development and will be made available in a forthcoming update (Version 2). While Sunsynk is committed to delivering these enhancements as soon as possible, the availability and timing of specific features may be subject to change without prior notice.

What Our AI Does Today

24-Hour Forecasting

AI creates a plan for the next 24+ hours by predicting your photovoltaic (PV) output, energy demand, and grid requirements. It then plans: sends an optimised charge/discharge schedule to the inverter.

Auto Optimisation

It controls: inverter runs that plan.

Site-Specific Learning

It repeats daily and gets better over time.

Constant Improvement

No "training period." Works from day one, improves continuously.

Predictive Charge / Discharge Management

Right now, our AI manages predictive charge/discharge (the energy supply side). It learns from real data at each site: location, weather, solar, battery, usage patterns.

SUN SYNK®

Why Choose Sunsynk Connect Pro?

Designed For Homeowners & Professionals

Sunsynk Connect Pro isn't just another energy app it's the heart of your smart energy ecosystem. Designed with both homeowners and professionals in mind, it offers an intuitive interface that makes managing energy simple, clear, and effective.

It works seamlessly with Sunsynk products to monitor, control, and optimise your entire setup. Whether you're charging your car, storing solar energy, or keeping your home powered during peak times, Sunsynk Connect Pro brings it all together.

With Sunsynk's reputation for innovation, reliability, and cutting-edge designyou're not just investing in software you're choosing peace of mind, performance, and expertise.

Easy-to-use interface designed for homeowners and professionals.

Backed by Sunsynk's reputation for innovation and reliability.

Works perfectly with Sunsynk products, including inverters, batteries, and EV chargers.

**Experience energy freedom** with Sunsynk Connect Pro.

Control your power. Save money. Live smarter.
